

'Let your light shine!'

Maths — We will start Year Two looking at numbers to 100 and the place value of these numbers, as well as revising number bonds to 10 and 20 from year 1. We will then use this knowledge to help us develop our addition and subtractions skills.

DT/ Art This term is art our unit of work is called, Mapping it Out. We will use lots of different media to create maps in many different ways.

Geography In Geography, we will be investigating the question, Would you rather live in a hot or a cold place? We learn the seven continents and five main oceans and compare climates.

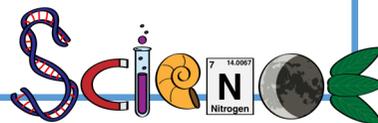

Music — We will be exploring sounds linked to animals and the weather and performing and creating songs with rhythms.

Year 2 Autumn Term 1 on a page

Science

This term in year two we will be learning about animals and humans and what they need to survive. We will look at the different animal groups and compare them.

Computing

We will be looking at Information Technology in its different forms and how to stay safe when us-

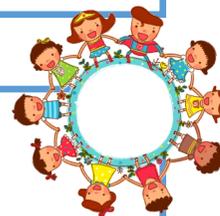

PE

This term's focus will be on gymnastics, balancing and sequencing of body positions as well as general fitness.

PSHE

Children will explore what makes them unique in their world.

English

We will start Year Two with a focus on grammar, looking at nouns, verbs and sentence construction. Once we have mastered the basics we will move on to reading and analysing non-chronological texts and writing our own.

RE — This term we will be looking at Thankfulness and what we have to be grateful for in God's wonderful world. We will also focus on Harvest Festival and how other countries and cultures celebrate this.
