Year 6 Summer Term 2 on a page

Maths:

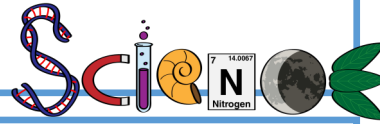

Themed projects, consolidation and problem solving

We will be reviewing all areas of maths in preparation for secondary school. We will also be working on how we can apply our knowledge to solve problems.

Science: Diet, Drugs and Lifestyle. Variation

We will continue to explore the impact of diet, drugs and lifestyle on body health. We will also look at the differences between individuals and study inherited characteristics.

English: Drama

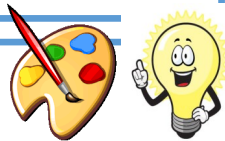

We will complete our work on the text Floodlands.

We will write a narrative using topics from the text.

We will also be looking at playscripts as we get ready to perform our school play.

DT: Digital World

We will look at designing a product to fit a brief. We will use a CAD programme to create a 3D image.

Computing: Sensing

We will use crumble kits to explore sequence, repetition, selection and programming.

RE: How Muslims show they belong?

We will look closely at the different symbols and practices of Islam. We will show how these demonstrate how Muslims belong.

Geography: Fieldwork

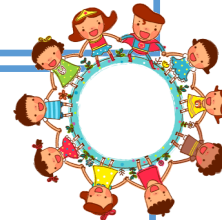

We will look at issues which affect our local area. We will collect data through fieldwork and map data digitally.

PE: Athletics and Rounders—We will focus on our athletics skills in preparation for Sports Day. We will also learn how to bat and field in rounders.

PSHE: Transition

We will be thinking about moving up to secondary school and how we can cope with the changes.

Important Notes

PE Day: Thursday and Friday

Termly Value: Wisdom

Music: Singing

We will write our own song and perform it at our Leavers Worship. We will also learn songs to perform for our school play.

Spanish: Planning a holiday.

We are going to be planning a holiday to Spain. We will be looking at different transport, accommodation, food and attractions.
